

Publikačný seminár

J. Tóvik:

„Free-energy landscape in magnetic systems from metadynamics“

Physical Review B

J. Kuzmík:

„Current conduction mechanism and electrical break-down in InN grown on GaN“

Applied Physics Letters

D. Gregušová:

„Polarization-engineered n+GaN/InGaN/AlGaIn/GaN normally-off“

Physica Status Solidi

M. Blaho:

„Annealing, temperature and bias-induced threshold voltage instabilities in integrated E/D-mode InAlN/GaN MOS HEMTs“

Applied Physics Letters
