## F. Gömory:

Current–voltage curve of the high temperature superconductor with local reduction of critical current

*Supercond. Sci. & Technol.*

Stability of DC transport in HTS conductor with local critical current reduction

*Supercond. Sci. & Technol.*

## F. Gucmann:

InN crystal habit, structural, electrical, and optical properties affected by sapphire substrate nitridation in N-polar InN/InAlN heterostructures

*Semicond. Sci. & Technol.*

## M. Talacko:

Aging of electron-written YBCO superconducting thin film structures

*J Mater Sci: Mater Electron*
